Career & Technical Education  
& Work-Based Learning

Effective skills development for students enrolled in Career Technical Education (CTE) programs is vital to ensuring their career success and continued growth of American manufacturing. In fact, they depend on it.

Nationally, over six million CTE-based positions are currently being recruited for on an ongoing basis. In a recent study, 83% of employers agreed that hiring employees with CTE experience will improve their bottom line, with 92% of employers favoring increased funding for CTE programs, nationally.

This is what sets **WorkForge** apart. Our CTE programming provides students a strong foundation of technical knowledge and employability skills to complement their academic studies and prepare them for their future whether it be college or jump-starting their careers.

## What does **SUCCESS** look like?
