Workforce Development
Solution Impact

Developing Success

Today's labor market continues to struggle with recruiting, retention, up-skilling and re-skilling workers in under-served, manufacturing heavy populations.

WorkForge provides State-level Workforce Development Initiatives with career pathways made of an online course catalog of over 850 competency-based training modules and years of success with proven results.

- Employer-defined organized competency-based learning paths that align with area employer needs.
- Organized alignment with Industry-recognized Career Programs.
- 800+ courses in 34 topic areas including technical / employability skills, Safety, Continuous Improvement, Soft Skills, Leadership, Regulatory and Compliance.
